Introduction

Joomla extension JSN PowerAdmin was built with one single goal: Help people manage their Joomla website with easy and joy.

We believe that it helps you save a lot of time taking control of your Joomla website. Now you can edit website content, search items, etc more easily than ever.

Now, let's get started!

Features Overview

AdminBar

AdminBar allows you to perform common actions quickly: Search items, check actions history, manage users and manage site.

Spotlight Search

Spotlight Search helps you search items in your website quickly.

- Search Coverages: You can search in 10 areas such as Articles, Modules, etc.
- Link to full Site Search page: Click "See more", you can go to the full results page.

You can set Search Result Number and Search Coverages in the Configuration page.

History number 30			
) item(s)		
Search Result Number 10) item(s)		
Search Trashed Items 🔘	No 💿 Yes		
	 Content Articles Content Categories Default Components Modules Plug-ins Site Menus Admin Menus Template Styles Users K2 Components 		

History

All items you have edited recently are displayed here. You can configure **History Number** in the **Configuration** page.

Searc	ch & Histor	у	
-			
	History number	30	item(s)
Search	n Result Number	10	item(s)
Searc	h Trashed Items	O No	⊙ Yes

User

User related pages are displayed here. Remarkably, the **Countdown Timer** and the **Person icon** indicate remaining time in your session in numbers and battery-like.

If you want to be logged in forever in your session, set **Set Infinite Session** to Infinite in the **Configuration** page.

Here we go to the coolest feature of this extension: **Site Manager**. It helps you control the website content in one place. As you see, it covers **Menu**, **Component** and **Modules**.

Please note that, all the changes you make here is auto-saved.

More conveniently, you can resize among 3 sections as you wish, drag the bar between 2 certain sections to the position you want to enlarge or shrink one section.

Site Configuration

Global Parameters

This is the place where you can configure parameters, including 2 main parts: Admin Bar and Site Manager.

In **Admin Bar**, you can configure parameters of admin bar, search and history, user, menu, simply select "Yes" or "No", set the number or tick the boxes you want.

In Site Manager, only one parameter, you should select "Yes" to show help if this is your first run.
